

# Image Cropper

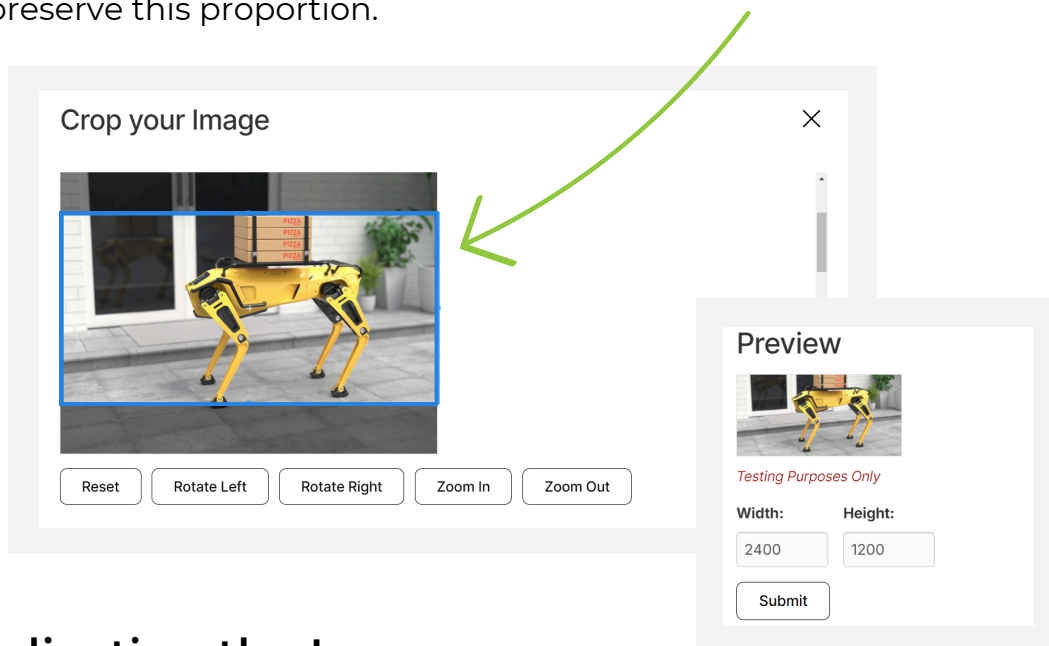

## Optimal Exhibitor Images

Our cropping tool will help maintain consistent photo proportions, ensuring your exhibitor showroom has the best display.

### Image Guidelines

When you upload product gallery images and special offers, the Image Cropper will appear to optimize your showroom display.

For best results, maintain a 4:3 aspect ratio. A blue outline on your image helps preserve this proportion.

### Adjusting the Image

Drag the blue outline to reposition. Preview your adjustments below.

**Rotation:** Use the rotate buttons to turn the image 90 degrees left or right.

**Zoom:** Zoom in or out to focus on specific details or view the entire image.

**Reset:** Click reset to revert the image to its original form.
